

## Participants of FDJ – summercamp August 2021

In these times of the apparent victory of imperialism over socialism.

In these times which in fact only show that imperialism only brings crisis, further decline and destruction.

In these times when day by day the ruling class' way out - fascism and war - is drawing nearer

- We - the FDJ, the JRCF, the SKOJ state -

The discussion and exchange about our positions and struggles and the common action of the revolutionary youth across the borders is needed more than ever.

Some days that taught us:

Cooperation must become even closer and more frequent. In exchange, in discussion and in action. Our opponent is weak, our strength is unity in internationalism.

Youth first, so that our generation may put into action:

What is our answer to war and fascism -  
revolution and socialism!
